

Accreditation & Ranking

Pharmacy Category

M.PHARM

PHARMACEUTICAL CHEMISTRY

- Affiliated with **CHARUSAT** University
- Approved by **PCI**
- **NIRF - 98th Rank** Institute
- **GSIRF - 5 Star** Category Institute
- **Scholarship** Available
- **Full Fees Waiver** for Top 05 Admitted **GPAT Qualified** Students

Key Features of Program:

- **Experienced faculty members** with excellent track record of scientific publication and conduction of application based research
- **Industry Tie-ups:** Collaborations with pharma companies for live projects, internships, and placements.
- **CADD Laboratory:** Equipped with advanced software for molecular modeling and drug design.
- **In-House Biological Evaluation:** Facilities for *in vitro* screening of novel compounds with hands-on training.
- **Impurity Profiling Expertise:** Training in detection and characterization of impurities as per regulatory guidelines.
- Academic enrichment through workshops, industrial expert lectures, training programs, etc.
- Opportunity to work on industrial projects

Research Areas

- Small molecule drug design and discovery on cancer, metabolic disorders, microbial/infectious disease
- Natural Products Chemistry
- Drug Repurposing
- Computational Chemistry, Chemoinformatics, Machine Learning
